Transcript

It will be good for your videos simultaneously. It's great. It's one of the most important patients in this class. It's like it's you after the two minute treatments. After the two minutes it will automatically go to the next questions. Here we go. Here we need to come on some. Yes, here we need to ask to prove like some people in the community. Support test has to be written. For example, this is a question and answer scenario. There is a scenario saying that, you ask the criteria, the power three employees of a school or an organization. You can take a course sample. Yes. You need to press the keyboard and take your writing. That's not implemented. So you need to take all the information. You can talk about it in the class. Some questions in the office. For example, we can give further 40 people. It takes a while. You can give it. You can give it. You can give it. You can give it. Yes, yes. So, it is about. Your 10 persons can be like. Which is last thing. And some questions can be like. Right. That person who is depending on the. So, you can take a position. Next. Yes. So, can you write a simple. I'm. So, you can give it. Once I get you to write it. It is fun like. It is like experiences. So, so by. I will be saying. Present. complete the test, two questions you complete and complete the test.
